DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 16 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim is directed to a signal per se since "A recording medium" contains a carrier wave. As set forth in page 50-52 of the Interim guidelines, carrier waves are non statutory because they are not capable of causing functional change.

Allowable Subject Matter

2. Claims 1-15 are allowed.

The prior art fails to teach a combination of a plurality of data processors including a plurality of unit inlet data processors; wherein each unit inlet data processor is coupled to a separate switching unit.

Response to Arguments

3. Applicant's arguments, see page 7, filed 15 June 2007, with respect to objections have been fully considered and are persuasive. The objections of claims 4, 7 and 8 have been withdrawn.

4. Applicant's arguments, see page 7-9, filed 15 June 2007, with respect to 102 rejections have been fully considered and are persuasive. The 102 rejections of claims 1-5, 7-12 and 14-16 have been withdrawn.

5. Applicant's arguments, see page 9-11, filed 15 June 2007, with respect to 103 rejections have been fully considered and are persuasive. The 103 rejections of claims 6 and 13 have been withdrawn.

6. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.129(a) and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.129(a). Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the submission under 37 CFR 1.129(a). See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
